

TEGO® Dispers 678 – Widely Applicable Dispersant for Solventborne Direct Grinds in Industrial Coatings

September 14, 2015

With TEGO® Dispers 678, Evonik Industries AG launches a new widely applicable dispersing additive, which is designed for both high-solid and medium-solid solventborne direct grinds in industrial coatings.

Its excellent stabilization of all pigments and fillers, as well as its broad compatibility with all common binders, makes TEGO® Dispers 678 the dispersant of choice for solventborne co-grinding systems. As a high-performance product, it shows an excellent stable color and very low rub-out results in the coating.

Additionally, it provides a stable color independent of the application method. With TEGO® Dispers 678, a strong reduction in viscosity may be achieved; this allows for very high solids content in the coating. Furthermore, TEGO® Dispers 678 is incorporated easily due to its low viscosity.

These benefits qualify TEGO® Dispers 678 as an excellent general use dispersant. TEGO® Dispers 678 complements the existing TEGO® Dispers specialty products for high-solid and medium-solid systems for direct grinds in industrial application.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Profitable growth and a sustained increase in the value of the company form the heart of Evonik's corporate strategy. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Evonik benefits specifically from its innovative prowess and integrated technology platforms. Evonik is active in over 100 countries around the world. In fiscal 2014 more than 33,000 employees generated sales of around €12.9 billion and an operating profit (adjusted EBITDA) of about €1.9 billion.

Evonik Industries has been producing specialty chemical products in the Greater China region (Mainland China, Hong Kong and Taiwan) since the late 1970's; with wide-ranging trading relations already in place prior to this in the region. Evonik regards Greater China as one of the driving forces of the global economy and we consequently endeavour to grow our business in the region. The company now has around 3,000 employees in the Greater China region, the regional sales reached over €1.1 billion in 2014.
