scarlett.shi@evonik.com

It provides very good results in rub-out tests with a superior image of clarity in applied coil coatings. Additionally, the new dispersing agent demonstrates excellent color stability and color development at various shear rates. This distinguishes TEGO® Dispers 675 from other products.

TEGO® Dispers 675 is supplied without any solvents as 100% active matter in pellet form, hence, it is very easy to handle. Dosage and storage of the product are uncritical even at high or low temperatures.

In addition to coil coating formulations, TEGO® Dispers 675 can also be used in pigment paste formulations.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Profitable growth and a sustained increase in the value of the company form the heart of Evonik's corporate strategy. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Evonik benefits specifically from its innovative prowess and integrated technology platforms. Evonik is active in over 100 countries around the world. In fiscal 2014 more than 33,000 employees generated sales of around €12.9 billion and an operating profit (adjusted EBITDA) of about €1.9 billion.

Evonik Industries has been producing specialty chemical products in the Greater China region (Mainland China, Hong Kong and Taiwan) since the late 1970's; with wide-ranging trading relations already in place prior to this in the region. Evonik regards Greater China as one of the driving forces of the global economy and we consequently endeavour to grow our business in the region. The company now has around 3,000 employees in the Greater China region, the regional sales reached over €1.1 billion in 2014.
